tive Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily eradicate all disease from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the plints gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

COLUMBIAN COAST. In the last number of the British Colum bian, in an article touching the prevalence of smuggling on the coast of that colony, we find another of the oft repeated attempts to bolster up New Westminster at the expense of every other place in British Columbia. The editor of that journal would have the present law, allowing vessels bound for places in British Columbia north of Fraser River, to clear at this port and pay the duty on goods destined for those places, to their their customs' officer here, abolished. In its place he would have a regulation compelling all vessels wishing to bring a cargo to any destination on the coast north of Fraser River, to go up that river to New Westminster for their clearance. A greater absurdity, a greater injustice to the people of British Columbia in general could not well be devised under present circumstances. If the British Columbian had suggested the propriety of erecting new ports of entry on the north coast to meet the increasing trade in that direction, even while doubting its success in an economical point of view, we could on principle find no fault with doing away with the system of clearing from this port We expect, should the two colonies continue distinct, that that will one day come to pass, and that there will shortly be quite enough trade at Bute Inlet, Bentinck Arm and per. haps eventually several other places north to support regular liners between them and this port. Then, instead of one port of entry on the coast of the mainland, we may have half a dozen. But in the meantime, we see no reason why the people in the interior of British Celumbia should be compelled to purchase goods at an unnecessarily high price on account of any absurd custems' regula-tions. They expect and are willing to pay duty on foreign preductions consumed by them, but they are not willing to pay extra freight up and down Fraser River, added to extra charges for handling, wharfage, etc. at New Westminster. This is an extra tax

But it is said that it is necessary that vesfor the north coast should clear at New Westminster in order to prevent smuggling and loss to the revenue. Now if any thing will cause smuggling it is heavy duties; it is the present tariff that encourages the little smuggling now carried on along the North Coast. Were that tariff increased as it would be in effect by compelling vessels to clear from New Westminster where goods are always comparatively high, instead of from Victoria where they are cheep, an additional impetus would be given to smuggling. Where one vessel now sells without paying duty, ten would then do so to avoid extra charges, so that the amount of revenue lost would undoubtedly be greater than it is at present. Under the present arrangement their clearance without any trouble at Victoria for a trip north, is a convenience which they appreciate and with few exceptions avail themselves of. Besides this they know they are under the supervision of the British Columbian Customs officer which they would not be were they obliged to clear at New Westminster. On the whole then we can see no good reason for changing the law as it now stands until ports of entry are establish ed at various points of the mainland north of the Fraser. Nothing could be effected by such a change that cannot be done under present arrangements. If smuggling goes on now it is not because vessels clear at Victoria instead of New Westminster, but because of the British Columbian tariff. As we have shown above, the alteration proposed by the British Columbian would have the same effect as an increase of the tariff, and consequently would, instead of effecting cure, make things worse.

the British Columbian population.

DEPARTURE OF THE BISHOP OF COLUMBIA FOR ENGLAND.

The steamer which is hourly expected will carry His Lordship the Bishop of Columbia on his way to England, after a sojourn of over three years in our midst. We cannot allow the occasion to pass without adverting to hi departure. His Lordship came hereat a time when the affairs of these colonies were in a somewhat depressed condition when compared with what they are at present. Since then the country at large has taken on immense stride-has grown in an astopishing degree in all the elements of wealth-increas ed in all the appliances of civi ization. Our country of three years ago is far different from our country of to day. The Pactolean stream from the Sierras of British Columbia had not commenced to flow. Our auriferous wealth was confined to the Fraser. There was no Cariboo-no Peace River-no Stekin -no Coast-routes-uo settlements on 'our northern coast-no settlers in this colony beyond few miles of Victoria, with the ex-ception of Nanaimo. We had but few missionaries of the gospel. But two schools here-none in British Columbia.

What a changeindeed! from then to now. Our town from a few miserable shanties has become a rich, populous, and well-built city, Our harbor is thronged with ships and steamers. Roads radiate into our Island. Thriving settlements dot our colony here and there, whilst the fragile canoe of the Indian has given place to a fleet of coasters whose white sails make cheerful the solitary parts of our coasts. Great roads traverse British Columbia. Hamlets have become towns. On the tops of our sierras where the white man's foot three years ago never trod. there are now flourishing towns, inhabitated by a population unsurpassed for dauntless energy, enterprise, and thrift. Our thin and poor gold-fields have been deserted for the Bald Mountains, where the earth as though struck with the Midas wand of the magician has been changed into fabulous heaps of gold. making the poor suddenly rich, attracting thousand on thousands from the uttermost parts of the earth.

But why speak longer of the material revolution that has occurred within three years? The social, educational, and religious revolutions are as strongly marked. Of these changes the Bishop has been a witness. In all these revolutions he has acted a prominent part. He has preached and planted the gospel in every inhabited part of a diocese comprising near 250,000 square miles. He has visited nearly every part of his diocese. He has seen the country and all classes of the inhabitants for himself. He knows its resources and advantages, its wants and defects. No man has had a better op-

portunity to know the British Possessions of North West America. He goes to England with a treasury of facts, bearing with him the warmest wishes of our population at large for his personal welfare and happiness; and from his active and potent exertions whilst here in behalf of the social, moral, material and religious elevation of the inhabitants of his diocese, we may rest confident that the coming year which he expects to spend in England will be turned to the profit of ou ountry. No man ever left this country fo CLEARANCES FOR THE BRITISH Merry England who possessed his lordship's opportunities to speak of it as it is, what ay and what it ought to be. The McDon alds, Rattrays, Maynes, Lennards, Camerons, McLures, saw but little of our commo ountry-only spots here and there. Bishop Hills has been nearly everywhere and seen everybody. Hence we fully anticipate that the best results will flow from his visit to England, and in common with our whole population, wish him a speedy voyage home and a safe return. PROSPECTS.

Looking over the records of the past coule of weeks, one cannot fail being struck with the favorable aspect of the chief interest of these colonies. All the anticipations which have been formed of a brilliant future for the British dependencies on this northwest coast of America are every day seemngly nearer in their realization. If we take our gold fields in Cariboo the accounts we continue to receive from them seem almost abulous, so great is the yield of the few claims that have already been opened. Not many weeks ago, two and three handred ounces a day from one claim was thought arge, but latterly we are startled by the ex. raordinary productiveness of the claim on Williams Creek, known as that of Hard Curry & Co, of which the amount of one day's work s set down as amounting to over one hundred pounds in weight. Another company's day's work figures at four hundred ounces and several others in like proportion. If even one-quarter of this amount be now obtained from claims worked during the past winter and this spring, what may we not expect when the lead shall have been reached in the number of claims along the creek !-a fact which will not be long deferred, judging from present appearances. While we have this favorable report from

Cariboo we are not without information from Peace River. Late accounts about that region lead us to expect that extensive diggings will be found and worked there this year. Experienced prospectors from Cariboo which would be sure to fall most heavily upon have been there during the past winter and the people of the upper country, who must accounts received from them up to the early henceforth constitute the greater portion of part of February, speak of their having struck bar diggings yielding thirty cents to the pan. The number of others who have since gone up and the quantity of provisions on the way up the Fraser for that region show that the miners have every confidence in its gold bearing indications. In connection with the favorable aspect presented by our gold mines, we cannot help noticing the progress of the various roads leading to them By the latter end of June at farthest, there will be waggon and steamboat communica tion from Victoria to the mouth of the Quesnelle. From that place either a road or mule trail is to be immediately commenced under the superintendance of the Royal Eugineers. These facts can not fail but to exercise a most favorable influence in redu cing the price of provisions, but we are not Fraser. The large party now under Mr. Waddington will shortly have prepared the coast route by way of Bute Inlet for traffic, when with the Bentinck Arm trail there will be three roads leading into the mines. This must for a certainty give rise to a healthy ompetition which will result in materially

educing the cost of freight. If our gold mining interests are looking netals. The very favorable news received lately from Queen Charlotte Island coppe nine is causing public attention to be directed to the propriety of having the metaliferou deposits in the Island worked. All are well onvinced by this time of the admirable field here presented for any amount of capital

To the Christian Lady who founded the Bishopric, and to all others who by their effectual support, have followed up that noble beginning, we would express our grate-ful acknowledgments, and trust that the in-calculable good which these measures promise benefactors abundant blessings, strengthen in them an earnest desire to promote those great objects which have been announced in your parting address. We regret that the short space of time intervening between the circulation of your pastoral letter and your departure, has render-

d it impracticable to obtain the co-operation of our brethren elsewhere, for we felt sure of our brethren elsewhere, for we felt sure that the sentiments expressed would have met with hearty concurrence from the Clergy and Laity of all parts of your diocese.

I leaving us you carry aith you not only our warm sympathies, but also our deep and heartfelt prayers to Almighty God, to have you in His holy keeping, to bless all your zealous efforts for His honor-and glory, and to restore you once more amongst us, to cheer us on in the pathway of faith, and to build up the Church of Christ in those lands.

Nanaimo Literary Institute.

Nanaimo, V. I., 1st May, 1863.

A very interesting and instructive Lecture was delivered under the auspices of this Institute in the Hall on Monday evening, 30th ult., by the Rev. J. B. Good: Subject-" Our ult., by the Rev. J. B. Good; Subject—'C. National Proverbs; what we may learn from them.' The Rev. E. White occupied chair. Tho lecture was a great relief duri these monotonous times, and throughout was highly pleasing to the axdience, who before dispersing, expressed a desire to hear a second discourse on the same subject. At the close of the lecture the usual vote of thanks from the meeting was accorded by the Chairman to the Rev. Lecturer, who suitably acknowledged the compliment, and promised to favor us with another lecture on same future occasion. some future occasion.

Really it is too bad to have occasion again to complain of no mails reaching us of late. The Emily Harris has made two trips since the last Mail Steamer arrived at Esquimalt. produced from the other side of the straits.

Case postponed to this day week.

PISHER AGAIN.

Jacob Fisher was brought up a second time, and charged by Sergeant Blake with being a "rogue and vagabond."

The Sergeant stated that prisoner had no ecupation, was too lazy to work, and was lways drunk; that he lived a large to the straight of the straight of the state of things—although in rather a peculiar manner, allow me to transcribe it for the gratification of your numerous readers:

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the uost simple and certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarm ing frequency. The Ohitment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Fills and Ohitment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

From the Kilrush Advertiser, June 2nd, 1850.
BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmury and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ontiment, for, as he said, it could not be worse with him. This man, said Mr. Cox, occame by their use as sound and as healthy as any man in the room. These celebrated Pills and Ontiment will cure y wound, sore, or ul cer, however long standing, properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic culargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity ir the blood, which i rapidly purified by the use of the Pills The Oin ment, when rubbed upon the skin, penetrates system through the pores, acts in unison with Pills, and soon effects a cure.

CENTLEMEN,-YOU WILL SHORTLY BE CENTLEMEN,—YOU WILL SHORTLY BE called upon to exercise the meat sacred rights of Britons, in selecting men of your own free will to manage your own local affairs, scrutinize and correct the course of Government, and adjust and impose taxation. While a feel that I have en especial claims to public support, I do claim, in common with my fellow citizens, that I have enbarked my capital, brought my family, and expended some portion of my past energies here; and that in a new country like this I have a right to aspire to a position in the management of its public affairs. I do not seek may office of emolument—I have never done so, nor is such my aim now. I am content to earn my living independent of Crowa patronage; but the honor of representing my fellow citizens is a distinction which any man might be proud of, and I aspire to that. I hold the equal rights of all men to be of the first importance in all cases of legislation, and know no distinction of creed, color, or country. Every colonist who has settled in this Colony as his future home, is entitled to equal privile with a fact that the surface of the first inclubor, and for such principles I will always contend.

Heaven has given us a fine climate, a good harbor, a natural position as the entrepot to a great part of Washington Territory and British Columbia; and in the present condition of American affairs so situated that with a Fake Porx and No Dent of any amount, we can supply a great share of the Pacific coast techner.

Sin:—I cannot resist informing you of the extraordinary effect I have experienced by taking
only a few of your LOZENGES. I had a cough
for several weeks that defied all that had been
prescribed for me; and yet got completely rid of
it by taking about half a small box of your Lozenges, which I find are the only ones that relieve
the cough without deranging the stomach or digestive organs.

The Conneil Leg to announce that this Association
has been Ionneid to grounde Colonial Union and

bia; and in the present condition of American affairs so situated that with a Fake Porr and No Debr of any amount, we can supply a great share of the Pacific coast cheaper than they can possibly be supplied from elsewhere.

I am fully alive to the advantages we possess and it is my anxious desire to forward our interests, particularly railroad and harbor enterprises; to watch and guard against corruption and misgovernment; to see that equal rights and cheap administration are preserved; that law costs and lawyers are looked after, without permitting to them exclusive privileges or business monopolies; that the merchant, tradesman, mechanic and artizan is protected and supported; land granted free, or at nominal rates to actual settlers, with a view to encourage that important interest; succulators at nominal rates to actual settlers, with a view to encourage that important interest; succulators at nominal rates to actual settlers, with a view to abolished.

There are many other public questions of great importance upon which I will speak hereafter, as they cannot be referred to within the limits of this address, but if you see fit to honor me with your confidence and support, you may jely that for neither inducements of office or patronage, no printing or other jobs will pass without exposure. And should it not be your pleasure to cleet me, I will support cheerfully whomsoever you think fit to cleet, so long as they fellow a line of policy similar to that I have here laid down.

I have the honor to be Gentlemen,

TUDGED BY THE IMMENSE DE-MAND, this Universal Remedy now stands the first in public favorand confidence; this re-sult has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wher-ever introduced.
